## Reclaimed American Chestnut Flooring

### Unfinished Solid | Reclaimed

This American Chestnut is reclaimed from old buildings and re-milled into plank flooring. Chestnut was virtually wiped out by the Chestnut blight in the early 1900's. Sold in mixed widths to replicate the look of traditional flooring or single width for a more contemporary look. This product offers the superior strength and stability of old-growth wood without the environmental cost. Reclaimed Chestnut's rustic features include knots, insect scarring, nail holes, and areas of weathered patina.
